

THE FLU CAN CRACK YOUR DEFENSES.

GET VACCINATED

The seasonal flu vaccine does not protect against COVID-19.

All necessary measures have been
put in place to ensure your safety
at the vaccination clinics.

BOOK YOUR APPOINTMENT ONLINE STARTING OCTOBER 4

- People aged 75 years old or over
- Persons over 6 months of age with a chronic disease (diabetes, heart or kidney disease, etc.), certain medical or living conditions
- People living in the same household (informal caregivers) as those belonging to groups at risk
- Pregnant women in good health, in their 2nd and 3rd trimester
- Pregnant women with certain chronic diseases, throughout their pregnancy (regardless the stage of pregnancy)
- Close relations of children less than 6 months old
- Healthcare workers

Children aged 6 to 23 months and healthy adults aged 60 to 74 are no longer targeted for vaccination. However, the vaccine is available free of charge to these people if they wish to receive it.
